IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In Re Application of: Henry M. Hund, Jr. et al.)
For: Mechanism For Dumping A)
Refuse Container) Art Unit: 3652
Serial No.: 09/975,759) Examiner: Charles A. Fox
Filed: October 11, 2001)

RESPONSE TO OFFICE ACTION

April 10, 2003

Commissioner For Patents
Washington, D.C. 20231

Sir:

RECEIVED
APR 18 2003
GROUP 3600

This is in response to the Office Action mailed on March 21, 2003. The Examiner has identified two inventions, namely Invention I, described in claims 1-17 which are drawn to a lifting arm assembly, and Invention II, described in claims 18-20 which are drawn to a refuse collection vehicle. The Office Action requires Applicants to make an election between the claims directed to these inventions for prosecution on the merits. In response to this Election/Restriction Requirement, Applicants elect the claims directed to Invention I, namely claims 1-17, without traverse. Please cancel claims 18-20 from this application, without prejudice to Applicants' right to file a divisional or other continuing application which includes such claims.

By making this election, Applicant makes no admission with respect to the patentability of the non-elected claims or with respect to the scope of the elected claims that may be allowable.

An Amendment/Petition to delete a correctly named original inventor, namely Mark A. Keller, who is not an inventor of the invention now being claimed, is enclosed pursuant to 37 C.F.R. §1.48(b).

Respectfully submitted,

David J. Hill
Attorney for Applicants
